

The  
Wedding  
That Feels  
*Like You*

---

HOW TO CREATE A MEANINGFUL,  
INTIMATE WEDDING WITHOUT  
THE OVERWHELM

The Nook at Bull Run  
A SPACE FOR INTIMATE CELEBRATIONS

# WELCOME

This isn't your typical wedding guide.

It's not a checklist.

It's not a long list of things you "have to do."

Because if you're here...

You're probably not looking for a traditional wedding.

You're looking for something:

- simpler
- more meaningful
- and more you

Something that feels good—not overwhelming.

This guide was created to help you see a different way.

A way to plan a wedding that:

- feels natural
- feels intentional
- and doesn't require turning your day into a production

You don't need more ideas.

You just need clarity.

As you read this, don't think about what weddings are "supposed" to look like.

Think about what would actually feel right for you.

Because that's what matters most.

**Not everyone dreams of a big wedding.**

And if you're here...

you probably already feel that.

Maybe the idea of:

- planning something huge
- managing a long guest list
- or turning your day into a production

...just doesn't sit right.

You don't want something complicated.

You want something that feels like you.

And that's exactly what this is about.

# THE TRUTH

**Most couples don't actually want a "big wedding."**

They've just never been shown another way.

So they follow the checklist.

They book the big venue.

They invite more people than they really want.

And somewhere along the way...

it stops feeling personal.

But it doesn't have to be that way.

# WHAT YOU REALLY WANT

You don't want less.

You want better.

You want:

- a day that feels calm, not chaotic
- a space that feels beautiful without needing to overdo it
- time to actually be present
- moments you'll remember, not rush through

You want something intentional.

Something meaningful.

Something that actually reflects you.

# A DIFFERENT APPROACH

Planning your wedding doesn't have to be overwhelming.

When you simplify it, everything becomes clearer.

Focus on just three things:

## **Your People**

The ones who matter most.

Not everyone you've ever met.

## **Your Space**

The right space changes everything.

When your venue already feels:

- warm
- styled
- and intimate

You don't have to overthink every detail.

## **Your Experience**

Your wedding isn't a performance.

It's a moment.

And when things are simple...

you actually get to enjoy it.

# PICTURE YOUR DAY

Imagine this...

You walk into a space that already feels right.

It's quiet.

It's beautiful.

It doesn't need much.

You're not rushing.

You're not stressed.

You're present.

Your ceremony is close, intentional, and personal.

Afterwards:

- you celebrate
- you talk
- you laugh
- you take your time

Nothing feels forced.

Nothing feels overwhelming.

It just feels right.

# THE SHIFT

A micro-wedding isn't a "smaller version" of a big wedding.

It's something completely different.

It's:

- more intentional
- more relaxed
- more connected

And once you see it this way...

It's hard to imagine doing it any other way.

# WHY THE SPACE MATTERS

The truth is...

You can have the right idea  
and still struggle to bring it to life  
if the space doesn't support it.

The right space should:

- feel good the moment you walk in
- require less, not more
- allow your day to flow naturally

Because when the space is right...

everything else becomes easier.

# THE NOOK at BULL RUN

At **The Nook**, everything is designed with this kind of wedding in mind.

Not big.

Not overwhelming.

Just:

- intentional
- beautiful
- and easy to step into

It's a space created for couples who want something different...

Something more personal.

Something that actually feels like them.

If this is the kind of wedding you've been imagining...

The next step isn't to keep searching endlessly.

It's to see the right space in person.

Because once you walk into a space that fits...

You'll know.

Come see The Nook.
